

Les principaux figurés conventionnels en histologie végétale

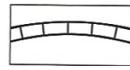

Parenchyme

Endoderme

Sclérenchyme

Assise subéreuse

Collenchyme

Xylème I

Péricycle
Phellogène
Cambium
(Phellogen)

Xylème II = bois

Épiderme (avec
stomates et
cuticule)

Phloème I

Phloème II = liber

Rhizoderme

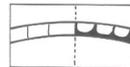

Liège = suber
